## Subject Index, Volume 6, 1971

- Abortion, incomplete, vacuum curettage for, 177
- Abortion, induction of, by prostaglandins E, 256
  - transplacental hemorrhage during voluntary interruption of pregnancy, 260
  - pregnancy termination: the impact of new laws, 274
- Acardius parasiticus, 270
- Acardiac monster, 270
- Androgens, in Morgagni's syndrome, 155
- Anemia, in pregnancy, 94
- Anemia, effects of maternal, upon the fetus, 262
- Atypia, cervix, incidence, 184
- Cancer cells, prognostic value of persistent, in vaginal smears of patients with cervical carcinoma treated by radiotherapy, 226
- Cautery, cryo-, for early cervical neoplasia, 143
  - electro-, for early cervical neoplasia, 143
- Centralized obstetric-surgical facility, 167
- Cephalometry and estriol measurement, 189
- Cervical atypia, incidence, 184
- Chorioangiopagus, 270
- Circulometry, of placenta, and morphometry, 209
- Coagulation, studies in toxemia, 78
  - and progestational agents, 110
- Complications of IUD's, 194, 196
- Computer analysis, labor, 20, 179
- Computers in cytology, 64, 125
- Condyloma acuminata, podophyllin, dysplasia in, 159
- Contraceptives, oral, side effects, 50
  - oral, and growth of leiomyomata, 56
  - pregnancy after, 90 (Erratum, 269)
- Contractions and placental venous return, 137
- Corneal hydration changes during menstrual cycle, 201
- Cryocauterization, cervix, for in situ carcinoma, 171
- Cytology studies, computer based, 64, 125
- Disseminated intravascular coagulation in toxemia, 78
- Drug permeability, ethchlorvynol, in maternal blood, fetal blood, amniotic fluid, and chorionic fluid, 229
- Dysplasia following podophyllin treatment of condyloma acuminata, 159
- Electrocautery for early cervical neoplasia, 143
- Electron microscopy, scanning, mammalian spermatozoa, 147
  - scanning, early rabbit gametes, 152
- Emergency room treatment of incomplete abortion, 177
- Erythroblastosis, current problems in prophylactic treatment of, 232
- Estriol, determination, comparison of methods, 59
  - measurement and cephalometry, 189
- Estrogen-progestogen therapy, and growth of leiomyomata, 56
- Ethchlorvynol disposition of, in maternal blood, fetal blood, amniotic fluid, and chorionic fluid, 229
- Fetal growth, measured by estriol and cephalometry, 189
- Gravida, premenopausal, study of 23 obstetrical patients 45 and older, 223
- Health care, Kaiser-Permanente plan effects, 163
- Hemorrhage, transplacental, during voluntary interruption of pregnancy, 260
- Hepatic metabolism, effect of progesterone on, 116
- Holoacardius amorphus, 270
- Hormonal contraceptives, pregnancy after, 90
- Hospital planning, centralized obstetric-surgical facility, 167
- Hypokalemia, of pregnancy, induced by furosemide and ethacrynic acid, 207
- Iatrogenic hypokalemia, of pregnancy, induced by furosemide and ethacrynic acid, 207
- In situ carcinoma, cervix, treated by cryocautery, 171
- Incomplete abortion, emergency room treatment for, 177
- Induction of Labor, 1, 34

- Interruption of pregnancy, the impact of new laws, 274  
induction by prostaglandins E, 256
- Intervillous venous return, in vitro study, 137
- Kaiser-Permanente plan and health care plan and medical education, 163
- Labor, induction of, 1, 34  
progression, limits of normal, 20  
progression, effects of parity, 179
- Laboratory methodology for estriol, 59
- Laparoscopic technique of puerperal tubal sterilization, 133
- Leiomyomata and estrogen-progestogen therapy, 56
- Leukocytes, maternal-fetal transfusion, 26
- Lippes loop, in abdominal cavity, removal by laparoscopy, 194, 196
- Liver rupture during pregnancy, 198
- Low income teenage pregnancy, 29
- Maternal-fetal transfusion, leukocytes, 26  
ethchlorvynol, 229
- Medical education under the Kaiser-Permanente plan, 163
- Menstrual cycle, corneal hydration changes, 201  
effects on coagulation, 110
- Methoxyflurane anesthesia for section, 105
- Morgagni's syndrome, androgens and cytogenetic studies, 155
- Morphometry and circulometry, of placenta, 209
- Nutritional status, pregnant teenagers, 29
- Oral contraceptives, side effects, 50
- Oxytocic principle, 256
- Parasitic monster, 270
- Perforation of uterus by Lippes loop, 194, 196
- Physiology of labor, normal, 20  
effects of parity, 179
- Placental permeability, 209
- Podophyllin and dysplasia in condyloma acuminata, 159
- Polycystic ovary, comparative effects of administration of cortisone, estrogen-progestin, and placebo on clinical manifestations of, 266
- Pregnancy in teenaged mothers, 29  
anemia in, 94  
rupture of liver, 198  
bilateral tubal, 205  
iatrogenic hypokalemia, induced by furosemide and ethacrynic acid, 207
- Pre-invasive carcinoma, cervix, 171
- Premenopausal gravida, study of 23 obstetrical patients 45 and older, 223
- Progeny following hormonal contraceptives, 90
- Progestational agents and coagulation, 110
- Progesterone and hepatic metabolism, 116
- Prostaglandins E, induction of abortion by ( $PGE_1$  and  $PGE_2$ ), 256
- Radiotherapy, prognostic value of persistent cancer cells in vaginal smears of patients with cervical carcinoma treated by, 226
- Rh-erythroblastosis, current problems in prophylactic treatment of, 232
- Rupture, of liver, during pregnancy, 198  
of gravid uterus, 218
- Section delivery and methoxyflurane, 105
- Stein-Leventhal syndrome, comparative effects of administration of cortisone, estrogen-progestin, and placebo on clinical manifestations of, 266
- Sterilization by laparoscope post partum, 133
- Teenage pregnancy, 29
- Toxemia, disseminated intravascular coagulation in, 78
- Tubal pregnancy, simultaneous bilateral, 205
- Tubal sterilization in puerperium, laparoscope for, 133
- Uterine contraction, effect on venous return from placenta, 137
- Utero-placental pathophysiology, 209
- Uterus, rupture of gravid, 218
- Vacuum curettage incomplete abortion, 177 (Erratum, 273)
- Vaginal smears, of patients with cervical carcinoma treated by radiotherapy, prognostic value of persistent cancer cells in, 226
- Vascular dynamics of pregnant uterus, 209
